

The Next Round of UCMR Monitoring is Right Around the Corner

With UCMR4 slated to begin in 2018, **BSK is actively preparing** to ensure we provide the highest caliber of services and technical support for our clients. As we have done for the first three series of these programs, BSK would like to help you through the entire process. We will offer services to make sure the program goes as **easy as possible** including:

- Being one of the few labs in the nation to be **approved for all of the new test methods** associated with UCMR4.
- Presenting **technical seminars** for various water groups.
- Offering **dedicated UCMR4 Sampling Classes** that can also be used for Continuing Education Credits.
- Assisting in finding answers for all technical questions relating to sampling, sample locations, and sampling schedule.
- Maintaining a Sampling Schedule Calendar to insure **pre-labeled sampling kits** are delivered in a timely fashion.
- Alerting clients when their data has been successfully uploaded to the SDWARS database.

Partnering with BSK Labs for your UCMR4 program is your best step towards receiving the highest degree of **technical service** and **data quality** available. As the program nears, we will send out updates with the latest information from the EPA. Estimated pricing (unit prices, guaranteed not to exceed) will also be available in the near future for budgetary purposes. In the meantime, should you have any questions regarding this program please feel free to contact BSK and we will assist you with any of your questions or program concerns.

Preparation is the key to success for UCMR4 – let BSK help you make this round of UCMR as easy and straightforward as possible.
